# Monroe Livingston REMAC Meeting Minutes January 21, 2013

#### Agenda Review – Manish Shah, MD

- Welcome to the first meeting of 2013
- Would like a moment of silence to remember the victims and everyone involved of the West Webster FD tragedy
- REMAC has been so successful over the years because we are so active at the committee level
- Committees do not require you to be a member of REMAC
- Would like to encourage all non-members to get involved with a committee
- Agenda is being passed around does anyone have changes?
- Please speak loudly and clearly into the microphone to assure an accurate recording

#### Minutes – Manish Shah, MD

• Minutes from the last meeting have been posted. Motion to approve the minutes – Cushman. All in favor? Opposed? Motion passed.

## Correspondence/Announcements – Manish Shah, MD

- Chart Lock Times for November and December are being passed around
- Rural/Metro data was not sent to us until Sunday, so their data is not on the report
- Will amend the reports and repost them to the website
- Welcome to Ben Sensenbach, our new Program Agency Administrator

# Medical Director's Report & Program Agency Report – Jeremy Cushman, MD

- Welcome to Ben
- Gave a report at MLREMS in regards to how much our office had processed in 2012
  - o Tracked 361 ALS providers within our system
  - o Tracked 188 providers to perform Online Medical Control
  - o Created 3 training podcasts on BLS medication and administration
  - o Processed 3,000 hours of CME
- Education opportunity going on regarding the Excited Delirium Syndrome protocol
- The plan is to standardize the approach and enhance law enforcement and EMS providers' awareness of Excited Delirium and how to safely manage it
- Should roll out in the March, April, May timeframe

#### Council (MLREMS) – Time Frost for Mark Tornstrom

- MLREMS held their annual meeting
- The State has finally paid us
- A lot of focus this year will be on the Training & Education Committee

#### <u>State Council Meetings – Jeremy Cushman for Tim Czapranski</u>

• State meetings will be held at the end of January

#### State Actions – Jeremy Cushman

• No report

## ALS Subcommittee – Julie Jordan (Chair)

- We will meet after this meeting
- Biggest challenge we face is a lack of pharmaceuticals available to us

# Pharmacy Subcommittee - Mike Bove (Chair)

- Last met in October
- Drug shortages has continued to be an issue
- May be worth writing a proactive plan stating which drugs we need and if we are short a drug, what the backup options are
- That way we have a procedure in place and would not have to wait for something to happen and call a special meeting
- This may be a good collaboration with the ALS Committee, as it seems to be regular agenda item

## Protocol & Policy Committee – Jeremy Cushman, MD (Chair)

- Number of action items some were discussed at the last meeting and all have been out for public comment
- Would like to go through each protocol to ensure there are no questions, concerns, etc.
- Protocol 1.3 "Advanced Directives" received no additional feedback; No concerns
- Protocol 1.4 "Determination of Death" typo, which can easily be fixed
- Protocol 1.5 no concerns or comments
- Protocol 2.8 "Excited Delirium" Nicole Acquisto, our Pharmacist suggested that we may want to include within this a caveat for an emergent phenomena – believe it's appropriate and reasonable
- Would recommend within 2.8 that we add an item 7 which would indicate if the patient develops an emergent phenomena such as agitation, nightmares, or hallucinations which could be potentially dangerous to EMS personnel they could administer 2.5 mg IV or IM, standing order
- Hearing no objections, we will add that to the protocol
- "Acute Coronary Syndrome" initial packet that was sent out had a typo in it; other than that, no other changes
- "RSI" no changes
- "Medication Data Sheet" Nicole identified a few more things I will add in to be consistent
- "ROS" Protocol indicated the change from dopamine to norepinephrine
- If these items are passed by REMAC, none of them will take effect immediately because they will need to be presented to SEMAC
- At this time, the next SEMAC meeting has not been scheduled
- All of these will require a fair amount of education product development in the meantime
- Motion to approve the protocols distributed in advance to this meeting with the changes made herein Mark Philippy, Second Dr. Murray
- All in favor? All opposed? Abstentions? Motion passes.
- Will be coming forth for action at the March meeting with changes to our current policy 9.3

#### Quality Assurance Subcommittee – Manish Shah, MD (Chair)

No report

## Regionalization, Julie Jordan

• Focused on two projects – a best practices document and the completion of the clearing regionalization document

## Finger Lakes Regional Trauma – Bob Breese (Official Representative)

No report

## Old Business

• None

#### **New Business**

- Drs. Cushman and Ostrovsky and I (Manish Shah) were at NAEMSP last week
- Would like to share some topics that were discussed at a national level
  - o Drug shortages: these are occurring across the county. Will not get better anytime soon.
  - o Hyperventilation and intubations was a big concept
  - o Mass casualty triage was discussed due to some events that have occurred
  - o Our Protocol & Policy Committee should reassess our position on pediatric endotracheal intubation within our system
- Dr. Cushman presented an excellent talk at the NAEMSP conference on the crane incident
- Interesting study presented that looked at benzodiazepines and their stability at room temperature
- Along those lines, agency leaders may have received a letter from the State of NY, BEMS, as well as the Bureau of Narcotic Enforcement have issued an edict to all EMS systems within the State any agency that has a CS license and wants to carry Ativan, must do so in a temperature controlled environment
- Fair amount of discussion re: patient safety
- Should any of you or your providers attend any of the EMS Conferences, please bring back some good information to share with us
- Next REMAC meeting will be March 18<sup>th</sup> at PSTF
- Motion to adjourn Tim Frost and Liz Darrow
