

## MLREMS Training and Education Committee (3.6.18)

Sheffer, Mickey												
Taylor, Terry												
Present			Absent with notification					Absent				

1. CME Matrix Review - Eric will follow up.
2. Monroe County grant topics for online education
  1. Annual mandatories - while most LMS have versions of these, most are too long and contain irrelevant information. There is a need for these annual mandatories IF they can be done in a shorter and more relevant manner. BBP, Hazmat, HIPAA, etc.
  2. Note from Brain B. who couldn't make the meeting: Further, I would suggest a small sub-group identify national instructors/speakers/leaders and contract with them to produce, create powerpoints, and do voice over with in Cypherworx for use in the region on any topic relevant to the parameters of the grant. I would envision identifying topics of interest to ALS and BLS, together or separately, and then take the list of speakers at Vital Signs, EMS Today, JEMS conference, and any other conferences where an instructor could be found. Have these instructors take their already done PPT, add it to Cypherworx and do voice-overs, and use the grant to pay them. This would be no different than Dr. Cushman's PPT on ETCO2. In this case, a disclaimer about following local protocols.
  3. Aggressive Deadly Behavior (ADB), Active Shooter, MCIs, Rescue Task Force (RTF).
  4. Sepsis.
  5. Something related to the care bundles released by DPM.
3. Preceptor class - there is a need for one prior to the summer and prior to when the preceptor class can be converted to the "new" hybrid format. Eric, Ben, and Mike M. will schedule one.
4. CIU - possibly only needs to be 3 hours. Ben has one planned with RFD. Ben will work with Sharon on this. Note: last year, CIU was cancelled in the fall due to lack of interest.

Upcoming meetings:

*All meetings are hybrid (live at the Division of Prehospital Medicine office and online via the contact information provided in the email at 3:00PM)*
