Advisory 26-15 MOLST and Medical Aid in Dying Education

To: All Agencies & Personnel

From: Maia Dorsett, MD, PhD, FACEP, FAEMS
Associate Regional Medical Director for Education and Quality

Jeremy T. Cushman, MD, MS, EMT-P, FACEP, FAEMS
Regional Medical Director

Date: November 3, 2026

The New York State Division of EMS has released the following policies:

- Policy 26-05: Medical Orders for Life-Sustaining Treatment (MOLST)
- Policy 26-06: EMS Response Guidance for Medical Aid in Dying (MAID)

The University of Rochester Division of Prehospital Medicine and MLREMS Program Agency have developed education to accompany these policies. We encourage all agencies to use these resources to educate their EMS clinicians.

Educational Resources

Full-length videos are available at the following links:

- MOLST Education
- Medical Aid in Dying Education

Agency Learning Management Systems

For agencies using Prodigy EMS, both courses are already available and can be assigned to your clinicians. Search the Prodigy EMS catalog for the term “MLREMS” to bring up all classes developed for regional education.

Agencies using other learning management systems may contact Maia_Dorsett@URMC.Rochester.edu to request the course outlines, videos, and quiz questions needed to build the courses in their own LMS.

With any questions, please do not hesitate to contact this office.
